Marine Leases

The Marine Leases data set holds spatial areas of land registered as a Marine Farm lease from the Crown within the State of Tasmania. Marine Farm Leases are issued under the Marine Farming Planning Act 1995 for a period of 30 years. The lease describes the area in which marine farming activities are permitted to take place in accordance with the Act.

The lease boundary is described on a survey plan registered in the Central Plan Register, as determined by the Minister and added as an attachment to the lease document.

The LIST Marine Farm Leases data set is maintained by the Information and Land Services Division of DPIPWE and contains spatial representation of all lease areas within Tasmania which are attributed with a Marine Farm Lease Number.

The Marine Farming Branch of the Water and Marine Resources Division of DPIPWE maintain Marine Farm Lease details, which are recorded against the Marine Farm Lease Number. LIST Marine Leases are a layer of the LIST Cadastral Area.

Marine Leases are a layer of the LIST Cadastral Area.
