Local Government Areas

The Local Government Areas data set contains gazetted Local Government Boundaries for the 29 Municipalities in the State of Tasmania. These were proclaimed in 1993 following a reduction in the number of Councils. Since then there have only been a couple of very slight adjustments to these boundaries to conform to gazetted amendments.

Local Government Boundaries legally extend to Low Water Mark and include offshore rocks and islands adjacent to the coastline, irrespective of where the digital boundary may portray the boundary for convenience.

Whilst generally these boundaries are meant to align to parcel boundaries, in many instances there may be a misalignment of these Local Government boundaries with other LIST Cadastral datasets. These will be corrected in due course by adjusting the Local Government Boundaries to fit the cadastre where appropriate

Data Structure

Formats available: MAPINFO TAB; ESRI SHAPE

Datum: GDA94

Projection: MGA94 Zone 55

Geometry: Polygon

The following attributes are supplied:

Field	Type	Description
LGA_ID	INT32	The Persistent Identifier for a Local Government area polygon
NAME	CHAR(60)	The full name for a Local Government Area
LGA_CODE	INT16	The three digit code used to identify a Local Government Area
PLAN_REF	CHAR(8)	The plan number of the plan registered in the Central Plan Office defining the boundary of a Local Government Area
GAZ_DATE	Date (YYYYMMDD)	The date on which a proclamation relating to the instance was placed in the Tasmanian Government Gazette
COMMENTS	CHAR(50)	Any specific comments relating to changes or status of a Local Government Area
UFI	CHAR(12)	Unique Feature Identifier – a unique identifier attached to every representation of a feature instance within The LIST
FMP	CHAR(12)	Feature Metadata Pointer – a code relating to information on lineage and accuracy of each feature
CREATED_ON	CHAR(19)	Date which the region was created in the Locality table. Format YYYY-MM-DD HH:MM:SS
