

# Crown Licences

Dataset

August 2009

## Crown Licences

**The Crown Licences** data set holds spatial areas of land under a current licence from the Crown within the State of Tasmania. These Crown Licences are administered by the Crown Land Services Branch of the Department of Primary Industries and Water. Licences are normally renewed annually but access licences may be for a fixed term. Licences do not give exclusive possession of Crown Land. Crown Leases are attributed with an Agreement Id, which can provide links to lease details from the CREST database. LIST Crown Licences are a layer of the LIST Cadastral Area.

**Crown Licences** are derived from the CadArea (Cadastral Area) table within the LIST Cadastral Data Model. The CadArea holds polygons representing areas of interest in land, which have attributes including Cad\_type1 and Cad\_type2. The Cad\_type1 represents the major classification or interest in land, which are then divided into sub classifications - Cad\_type2.

Eg.    Cad\_type1 = Authority Land    &    Cad\_type2 = DPIWE owned/administered  
      Cad\_type1 = Casement            &    Cad\_type2 = Reserved Road  
      Cad\_type1 = Easement            &    Cad\_type2 = Right Of Way

**Crown Licences** comprises the features which have the Cad\_type1 code of 7 (Licence):

Types of Licences maintained within the Cadastral Area and available with this dataset are:

- Crown Licence
- Crown – Letter of Authority

Applications are not included within this dataset.

## Crown Licences - Data Structure

**Formats available:** MAPINFO TAB; ESRI SHAPE

**Datum:** GDA94

**Projection:** MGA94 Zone 55

**Geometry:** Polygon

Field	Type	Description
CID	INT32	Cadastral Persistent Identifier – The unique database identifier for each cadastral polygon
PID	INT32	The unique Property Identification number relating to a (live) current rateable property. Property information is maintained against the PID in the VISTAS valuation property database
LICENCE_TY	CHAR(60)	The description for the secondary classification of a cadastral area being the licence type
STATUS	CHAR(60)	The status of the instance of a licence whether Live or Application
AGR_ID	CHAR(30)	The identifier from an external dataset being the Agreement Id for a current Crown Licence or the File Reference for a region depicting an application for a Crown Licence
PLAN_REF	CHAR(20)	A plan registration reference issued by a Plan Authority
COMP_AREA	DECIMAL(16,3)	The computed area of the region in square metres
MEAS_AREA	DECIMAL(16,3)	The area recorded in the plan that depicts the region in square metres
UFI	CHAR(12)	Unique Feature Identifier – a unique identifier attached to every representation of a feature instance within The LIST
FMP	CHAR(12)	Feature Metadata Pointer – a code relating to information on lineage and accuracy of each feature
CREATED_ON	CHAR(19)	Date which the region was created in the CadArea table. Format YYYY-MM-DD HH:MM:SS

GSB Use only - Extraction parameters

Retired\_on: null

Status: 0,1

Cad\_types: 7,1 7,2

## Data Pricing – Standard Commercial Rate

Base Data Fee (Standard State Supply)	\$100.00
Administration & Licencing	\$100.00
GST	\$ 20.00
<b>Total</b>	<b>\$220.00</b>

Additional fees may apply for supply of data in non supported formats

Extracts of portions or subtypes of the **Crown Licences** can be supplied with a minimum charge of \$100.00 plus GST. Additional administration and licencing fees may not apply for partial extracts.
