

# Marine Nature Reserves

Dataset

February 2008

## **Marine Nature Reserves**

**The Marine Nature Reserve** dataset is the authoritative source for information on the Marine Reserves around Tasmania's coastal waters.

The Macquarie Island Marine Nature Reserve is not included in this dataset.

The Marine Nature Reserve dataset includes areas of Tasmanian State Waters that have been defined as Marine Nature Reserves by the Tasmanian Fisheries Rules 1999. Where part of the Reserve allows restricted fishing, a separate region has been created for that part with a note in the Comment field of "Restricted Take". All other Marine Nature Reserves prohibit fishing. Refer to Fisheries Rules 1999 (SR158 of 1999) for details.

The Marine Nature Reserves contained within this dataset are as follows:

- Governor Island Marine Nature Reserve
- Maria Island Marine Nature Reserve
- Ninepin Point Marine Nature Reserve
- Tinderbox Marine Nature Reserve
- Kent Group Marine Nature Reserve
- Port Davey/Bathurst Harbour Marine Nature Reserve

## Marine Nature Reserves - Data Structure

This dataset is available in a number of formats to suit most GIS / Desktop Mapping platforms. Datum is GDA94. The following attributes supplied as standard, although further attributes are available and may be supplied upon request:

<b>Field</b>	<b>Type</b>	<b>Description</b>
CID	INT32	Cadastral Identifier – The unique database identifier for each cadastral polygon
NAME	CHAR(60)	The name of the Reserve if recorded in the Nomenclature Register
COMP_AREA	DECIMAL(16,3)	The computed area of the region in square metres
MEAS_AREA	DECIMAL(16,3)	The area in square metres recorded on the Plan that depicts the feature
COMMENTS	CHAR(50)	The comment field is used where a Marine Nature Reserve has both “Restricted” and “No Take” zones
PLAN_REF	CHAR(8)	A Plan Registration Number assigned by a Plan Authority
PLAN_AUTH	CHAR(60)	The description for the authority under which a plan is registered
INST_NO	CHAR(40)	The instrument details (No of Year) used to create, alter or revoke the instance of a region
GOVERN_ACT	CHAR(60)	The Act that the instance of a region is operating under
GAZ_DATE	CHAR(19)	The data of the Gazette relating to the region’s creation. Format YYYY-MM-DD HH:MM:SS
EFFEC_DATE	CHAR(19)	The date the instance of the region became effective in this category. Format YYYY-MM-DD HH:MM:SS
UFI	CHAR(12)	Unique Feature Identifier – a unique identifier attached to every representation of a feature instance within The LIST
FMP	CHAR(12)	Feature Metadata Pointer – a code relating to information on lineage and accuracy of each feature
CREATED_ON	CHAR(19)	Date which the region created in the Cad_Area table. Format YYYY-MM-DD HH:MM:SS

GSB Use only - Extraction parameters

Retired\_on: null  
 Status: 0  
 Cad\_type: 15,10
