## Private Reserves

The **Private Reserves** dataset includes Private Nature Reserves, Private Sanctuaries and Conservation Covenants proclaimed and/or registered pursuant to the Nature Conservation Act 2002.

The Private Land Conservation Program (PLCP) encompasses a number of programs to promote and facilitate conservation agreements between private landowners and the Government. The programs establish a covenant on the Folio of the Register and a management agreement with the landowner to establish a system of forest reserves on private land.

The Private Reserves data set contains the spatial locations of these areas which are attributed with a CPR number, proclamation details and a unique Id. Private Reserves are a layer of The Cadastral Area. These polygons have been formed from The LIST Boundary Segments and the layers from The Cadastral Area spatial table within the Cadastral Data Model comprising the following classification of features.

<b>Cad Type</b>	<b>Category</b>	<b>Description</b>
2	Private Sanctuary	Private Sanctuary proclaimed under the Nature Conservation Act
3	Private Nature Reserve	Private Nature Reserve proclaimed under the Nature Conservation Act
24	Conservation Covenant	An area set aside for permanent protection for the conservation value/s
25	Conservation Covenant - Domestic	An area set aside for permanent protection for the conservation value/s
26	Conservation Covenant - Miscellaneous	An area set aside for permanent protection for the conservation value/s
